INVESTIGATIVE COMMITTEE REPORT

TO: Arizona State Veterinary Medical Examining Board

FROM: PM Investigative Committee: Adam Almaraz - Chair
Amrit Rai, DVM
Cameron Dow, DVM - **Absent**
William Hamilton
Brian Sidaway, DVM

STAFF PRESENT: Tracy A. Riendeau, CVT – Investigations
Dawn Halbrook – Compliance Specialist
Mary Williams – Assistant Attorney General

RE: Case: 20-28
Complainant(s): Midge Britton
Respondent(s): Darla Wright, DVM (License: 3592)

SUMMARY:

Complaint Received at Board Office: 9/20/19
Committee Discussion: 12/3/19
Board IIR: 1/15/20

APPLICABLE STATUTES AND RULES:

Laws as Amended August 2018
(Lime Green); Rules as Revised
September 2013 (Yellow)

Complainant claims that two of her horses, "Avatar" and "Two Socks" were stolen and presented to Respondent for blood work to be shipped out of state. Complainant was concerned Respondent did not verify ownership of the horses.

Complainant was noticed and appeared telephonically.
Respondent was noticed and appeared telephonically.

The Committee reviewed medical records, testimony, and other documentation as described below:

- Complainant(s) narrative: *Midge Britton*
- Respondent(s) narrative/medical record: *Darla Wright, DVM*

PROPOSED 'FINDINGS of FACT':

1. According to Complainant, her horses were stolen and presented to Respondent for blood work to be shipped out of state. She expressed concerns that Respondent did not verify the horses' owner before providing services.
2. Respondent stated that Complainant is not a client of hers and there are no animals in her database with the names "Two Socks" and "Avatar."
3. Complainant submitted receipts from Respondent regarding care of her horses from 2006. Veterinarians are only required to keep medical records three (3) years from the last date of service.

COMMITTEE DISCUSSION:

The Committee discussed that veterinarians are only required to maintain medical records for three years past the last date of service. Respondent no longer had information on the two horses from when they were brought in by Complainant.

The Committee further discussed the time line as presented by Complainant – the horses were stolen in 2015, tested by Respondent in 2017, and Complainant informed Respondent in September 2019, years after the alleged incident. For USDA purposes, a veterinarian would need to verify accuracy of information (microchip, tattoo, vaccines, etc.) not ownership of an animal. If Complainant had sold the horses, it is not customary to erase the branding and rebrand a horse. Most veterinarians would assume that ownership had transferred, not that a horse was stolen. There are no Statutes or Rules requiring veterinarians to verify ownership of an animal.

COMMITTEE'S PROPOSED CONCLUSIONS of LAW:

The Committee concluded that no violations of the *Veterinary Practice Act* occurred.

COMMITTEE'S RECOMMENDED DISPOSITION:

Motion: It was moved and seconded the Board:

Dismiss this issue with no violation.

Vote: The motion was approved with a vote of 4 to 0.

The information contained in this report was obtained from the case file, which includes the complaint, the respondent's response, any consulting veterinarian or witness input, and any other sources used to gather information for the investigation.
